Welcome!

The Auburn Cord Duesenberg Automobile Museum is a National Historic Landmark that houses over a hundred automobiles, and thousands of artifacts and pieces of archival literature.

In addition to antique and classic Auburns, Cords, and Duesenbergs, the Museum features special interest and classic cars, carriages, and Indiana-made automobiles.

We invite you to explore the galleries and learn our history, from the beginning as the Eckhart Carriage Company and the origin of the Auburn Automobile Company, to exports and innovation under E. L. Cord and his Cord Corporation.

As a National Historic Landmark, the original Art Deco building allows you to step into the past and see the same walls, colors, and designs that inspired the employees of the Auburn Automobile Company who worked here.

Make sure to experience all the Museum has to offer! Check out the map inside this guide to see all of our interactive exhibits. See E. L. Cord’s office, design a car at a drafting table, and walk the same halls as automobile stylists Gordon Buehrig and Alan Leamy.

History is waiting for you!

Don't forget to stop by the front desk for a special prize after completing the Scavenger Hunt!

SCAVENGER HUNT ACTIVITY

1. Find an Auburn, a Cord, and a Duesenberg - list their years and colors.

2. What do the initials "E" and "L" stand for in E. L. Cord's name?

3. Find a red car in the Museum, what is its year and make?

4. Who designed the Cord L-29?

5. Who designed the Cord 810 and 812?

6. Visit the export gallery, list one country that Robert Wiley visited.

7. What are the first names of the two Duesenberg brothers?

8. What is the name of the family who started the Auburn Automobile Company?

9. Find the Indiana map of car production located in the Cars of Indiana Gallery. How many companies produced automobiles in Auburn, Indiana?

10. What is your favorite car in the Museum?
